

TRIANGLE CHEMICAL COMPANY WAREHOUSE OPENING

Growing Southeast Agriculture *and* Walls

Macon, GA – Triangle Chemical Company is in the growing business. The January 2010 opening of the distribution warehouse and office space in Lee County, GA confirms their nature. The family owned distributor of agriculture inputs based in Macon, GA is dedicated to agriculture in Southeast United States. The new 14,000 square-foot facility will continue to deliver the company's commitment.

Construction began in February 2009 to primarily serve cotton, peanuts, corn, soybeans, wheat, pecans, and turf and ornamental growers in Southwest, GA. The location employs eight workers and was built to better suit Triangle's key involvement in the market.

Triangle Chemical Company was founded in 1947 in Macon, GA. With four generations of family involvement and a focus on chemical distribution and production, Triangle is loyal to the future of agriculture and providing unprecedented service for customers.
