

TOPNOTCH K-PLUS

TOPNOTCH K-PLUS has a highly available Nitrogen and Potassium source to quickly aid in the nutrient levels. TOPNOTCH K-PLUS also contains Manganese, Molybdenum, and Boron which are critical for proper pod fill and bean production.

RATES OF APPLICATION:

BEANS: Apply at 1-2 qts/acre at V-3 / V-4, R-1 / R-4

OTHER CROP:

Foliar Application:

Apply 1 to 2 quarts/ acre as needed on a 10 - 14 day schedule.

Avoid foliar applications when plants are under stress due to lack of moisture..

Soil Application:

Apply 2-4 quarts/acre as needed.

5-0-20 GUARANTEED ANALYSIS

Total Nitrogen(N).....	5.0%
5.0 Urea Nitrogen	
Soluble Potash(K ₂ O).....	20.0%
Boron(B).....	0.2%
Manganese (Mn).....	0.7%
0.7% Chelated Manganese	
Molybdenum(Mo).....	0.02%

Derived from Urea, Potassium Acetate, Manganese EDTA, Sodium Molybdate, and Boric Acid

Maximum chlorine content not more than 0.01%

Wt/Gal: 10.95 Lb @68F

FIRST AID

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes, occasionally lifting the upper and lower lids. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Rinse container. Empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact county agricultural commissioner for disposal information.

CONDITIONS OF SALE

Follow directions carefully. Timing and methods of applications, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

TOPNOTCH K-PLUS FEATURES

BENEFITS OF TOPNOTCH K-PLUS:

- It is a formulation of Nitrogen combined with a high percentage of available Potassium for increased K availability when your crop needs it the most.
- The Potassium is derived from Potassium Acetate, which has been proven to have an increased uptake over most other potash sources currently available.
- It contains Boron, Manganese, and Molybdenum, which are critical for proper pod development and pod fill during this stage of the growing cycle.
- It is formulated with Humic Acids for a “metered” translocation of all your tank mix products, while aiding in soil uptake of nutrients.
