

VOLDONE

VOLATILITY REDUCING AGENT - DRIFT CONTROL ADJUVANT - WATER CONDITIONER

PRINCIPAL FUNCTIONING AGENTS

Potassium acetate, sodium citrate, 2-propenamide.....	54.9%
Constituents ineffective as a spray adjuvant.....	45.1%
Total.....	100%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

Read label before use. Keep container tightly closed. Keep only in original container. Do not eat, drink or smoke when using this product. Avoid breathing vapors or spray. Wash hands thoroughly after handling. Wear protective gloves, protective clothing, eye protection.

FIRST AID

Have the product container with you if calling a poison control center or doctor, or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing.

IF ON SKIN OR CLOTHING: Wash with soap and water for several minutes.

IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

GENERAL INFORMATION

VOLDONE is a multifunctional adjuvant that helps to control the volatility that may occur with the use of certain forms of dicamba.

VOLDONE helps to form consistent droplet sizes within the optimum range for uniform control and accurate delivery of the application.

VOLDONE is formulated with an AMS-free water conditioner to help prevent the loss of active ingredient efficacy that can occur when the mixing water is mineral-saturated or of unknown quality

VOLDONE is recommended for use on all agricultural crops and is compatible with most active ingredients such as glyphosate, 2,4-D, dicamba.

VOLDONE has been approved for use as a DRA and VRA with Bayer XtendiMax[®], BASF Engenia[®], and Syngenta Tavium[®].

DIRECTIONS FOR USE

Follow the instructions on the most restrictive active ingredient label.

Tank mixtures should only be applied within the label recommendations and state/local restrictions of every product in the tank mixture.

VOLDONE DOES NOT CONTAIN AMS.

Although phytotoxicity has been evaluated, care should be taken by conducting a jar test or testing this product on sensitive plants before full application is performed.

Order of addition

Prior to mixing, fill the spray tank with half of the carrier. Start the sprayer and check to make sure that all valves and gauges work and that there is adequate tank agitation.

Add **VOLDONE** to the tank as the first component. Continue to agitate and follow the steps below:

In general, follow the W-A-L-E-S plan when adding herbicides to a tank mix.

1. Wettable Powders (WP) then Flowables (F, DF)
2. Agitate then add anti-foaming compounds or buffers.
3. Liquid and soluble products such as XtendiMax with VaporGrip Technology.
4. Emulsifiable concentrates (EC)
5. Add remaining water and continue to agitate.

APPLICATION RATES

Herbicides	11 pints per 100 gallons	1.4% v/v
XtendiMax, Engenia, Tavium	11 pints per 100 gallons	1.4% v/v

Caution should be used when applying this or any other product on crops during hot, dry field conditions.

STORAGE AND DISPOSAL

Storage: May be slippery when wet. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. **STORE BETWEEN 40° AND 90° F.**

Disposal: Do not contaminate water, food or feed by disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local, regional, national and international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.

WARRANTY: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk or any such use.
