

# TRI-FUSION

## MSO-OSS-NIS

### GENERAL INFORMATION

TRI-FUSION is a 98% premium blend of organosilicones, methylated vegetable oil and non-ionic surfactants. It provides superior spreading, penetration and activation of herbicides, fungicides, insecticides and defolliants. Because TRI-FUSION contains organosilicones, it offers faster, more uniform distribution of active material on the leaf surface than conventional spreaders. The vegetable oil ensures complete penetration through the waxy leaf cuticle.

### DIRECTIONS FOR USE:

Preparation of Spray Material.

1. Fill spray or mix tank with 1/2 to 3/4 the desired amount of water. Start mechanical or hydraulic agitation.
2. Add the required amount of pesticide.
3. Add the required amount of TRI-FUSION and continue agitation until a uniform mixture is obtained.

NOTE: Maintain constant agitation of spray mixture during standing and application to assure uniform pesticide application.

4. Add the remaining volume of water and mix contents thoroughly.

### DILUTE RATES:

Ground Application: Use 3 to 5 pints of TRI-FUSION per 100 gallons of spray mix.

Aerial Application: Use 4 to 16 pints of TRI-FUSION per 100 gallons of spray solution in combination with the recommended pesticide.

### CONCENTRATED RATES:

Ground Application: Use 4 to 8 ounces of TRI-FUSION per acre in 10 gallons of spray solution.

Aerial Application: Use 6 to 24 ounces of TRI-FUSION per acre in 10 gallons of spray solution.

### COMPATIBILITY

This product may be used with wettable powder, emulsifiable concentrate or solution formulations of most of the pesticides and insecticides now on the market.

### PRINCIPAL FUNCTIONING AGENTS

Organosilicone, methylated vegetable oil, poly fatty acid esters, polyethyloxylated esters, nonionic surfactants.....98.0%  
Constituents Ineffective as a Spray Adjuvant.....2.0%  
TOTAL: 100.0%  
All ingredients are exempt from tolerance levels in CFR 40, 180,1001.

## WARNING

### PRECAUTIONARY STATEMENTS:

WARNING: Hazardous to humans and animals. Causes serious eye irritation. Harmful to aquatic life. May be harmful if swallowed. May be harmful in contact with skin. When mixing or apply agricultural sprays, always wear protective spray goggles and impervious gloves plus protective clothing as recommended on pesticide labels. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco products.

### FIRST AID

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes, occasionally lifting the upper and lower lids. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

### PERSONAL PROTECTIVE EQUIPMENT

USER SAFETY RECOMMENDATIONS: Wear long sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eye wear (goggles or face shield), and shoes plus socks. User should wash hands before eating, drinking, chewing gum, using tobacco or using toilet. Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Rinse container. Empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact county agricultural commissioner for disposal information.

### CONDITIONS OF SALE

Follow directions carefully. Timing and methods of applications, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
